Photo News

I had the pleasure of attending the **NWCCC's 2022 Conference** in Woodinville on November 12th. It was held at the Brightwater Environmental Education & Community Center.

They displayed all the print entries as well as the digital entries that won awards in the exhibition. Refreshments were provided and time was allotted for attendees to socialize with each other. Six online classes were made available as well.

The NWCCC's Conference Keynote Speaker this year was Kristi Odem. She is from Longmont, Colorado. Kristi is a Nikon Ambassador. She is also an Associate Fellow of the International League of Conservation Photographers.

Her specialty is to create photos that generate an emotional connection to animals.

Kristi gave an inspirational and passionate presentation providing her personal journey to becoming a nature photographer. Over time, she evolved to become passionate about showing the personalities and emotions of animals. She now travels around the world photographing and teaching others how to photograph animals in a way that creates an emotional connection.

She has won two Nature's Best Photography awards that were displayed in the Smithsonian Museum of Natural History.

Her clients include National Geographic, Nikon, Forbes, Rollingstone, Microsoft and Outside Magazine.

Kristi's website is at:
